

Credit Card Offer Activity:

Using the credit card offer provided, complete the following table:

Is there an Introductory APR? What is it?	Yes, 0% intro APR is given.
How long does this Intro APR last?	It lasts 6 months
Regular APR (APR after the Intro period)?	17.49% to 26.49% APR
Fixed or Variable?	Variable, based on the Prime rate now.
Annual Fee (may be called a membership fee)?	None listed
APR on Balance Transfers?	10.99% intro APR for balances for 6 months, then 17.49% to 26.49% APR based on credit worthiness
Balance transfer fees?	Intro fee of 3% of the amount of each transfer before May 10 2025, then 5% the amount. All at the above APR.
APR on Cash Advances?	29.49%; will vary with the market based on the Prime Rate
Late Payment Fee?	None the first late payment. After that, up to \$41.
*Over-the-Limit Fee?	None listed, not able to go over
*Foreign Transaction fees (aka Currency Conversion Fees)?	None listed
Are there any rewards for using card? Explain:	Yes, there is 5% cashback, but it is capped quarterly
Would this be a good card for you? Why or why not?	No, I already have two cards and very recently opened another credit account. Maybe sometime in the near future.
What other item of interest did you see in the fine print? Or What question do you have?	There are regulations for certain states. Why is this the case? Why is there fine print for New Yorkers and Wisconsin residents specifically?

Reading a Credit Card Statement

A credit card statement provides information such as how and when you’ve used your credit card, how much you owe, how much interest you’re paying to use the card, how much your minimum payment is, and how much credit you have left.

Knowing how to read your credit card statement can also help you catch unauthorized charges and/or billing errors.

So, it can pay to know how to read the statement!

Directions

Use the credit card statement below to answer these questions:

- 1. What is the date of the statement? **2/13/2009**
